APRICOT, PEACHES AND MORE...

Some more of patience and the first stone fruits harvest is going to begin.

The season is announced with much fewer volumes.

Indeed, the cruel lack of water in Murcia and the climat complicate strongly the productions.

However, **our partner "Cokes"** guarantees us a magnificent quality with bigger sizes.

Red apricot, white and yellow nectarine, white peach and flat peach will soon be ready for the offer.

Remain connected to follow our current events and the first kilos.
